applications
universities (research)
corrosion
electro-chemical
flue gas
skin
solar panels
(energy transfer)
polymers
curing process
discover additives
multilayer thickness
recycling
wear
pharmaceuticals
identification
process control
(homogeneity, mixing)
petrochemistry
fuels
(additives, MON, RON)
lubrication
solvents
wastewater (TOC)
industry
identification
(raw materials)
in-process control
healthcare
medicines
serum
food
premix
(ingredients)
bulk
(fat, FFA, moisture,
protein, GMO)
feed
premix
(ingredients)
bulk
(fat, moisture,
protein, GMO)
fabrics
identification fabrics
analysis coatings
agriculture
coating seeds
vigour seeds
manure
fertilizer
